Who Are We ?

Fer Cosmetics, which was established in 2018 with the aim of bringing dermocosmetic skincare products to the consumers; We continue our work by assimilating our ethical principles for the target of transporting our products to international markets with new production facilities.

In line with the demands of our export partners in our FDA, GMP, SEDEX and ISO certified production facility, we carry out our production processes with our expert team members by using the most advanced technologies in the production and packaging of Skin Care Serums and Creams, Hair, Body and Personal Care products. With our active brands “NEW ESSENTIALS”, “BABYMED”, “SUNBLOCK”, “DAY JUST”, we are expanding our export network day by day and we continue to increase our brand awareness in the international arena.

We Are Inspired By Nature ...

We do our R&D studies in this direction and adopt the principle of developing environmentally friendly products. Our Fer Cosmetics, R&D center, unlike its counterparts, has been designed according to our production processes and we carry out our work in accordance with GMP requirements. We closely follow the latest trends in the field of cosmetics and dermocosmetics and constantly renew ourselves.

We Respect Nature & We Are Aware of Our Responsibilities !!!

As Fer Cosmetics family; We consider environmental sensitivities in our work and update our production processes accordingly. In our raw material choices, we care about and support the efficient use of local resources with sustainable opportunities.

In addition, we ensure the protection of biodiversity with our effective raw material use, and we realize a production that observes the ecosystem balance.

We also take care to procure, develop and use packaging solutions with minimal environmental impact.

We Are Inspired By Our Countless Customer Satisfaction !

We carry out our R&D and P&D studies within our company with our expert teammates.

We carry out our processes with great care in line with our quality policy, which we have adopted with our expert teammates in our production adventure, which starts from the raw material to the finished product.

We are proud to offer our valuable customers and business partners in sustainable packaging by combining the most innovative assets with the best technologies, by working with our approved supplier parties at the point of supplying raw materials, primary and secondary packaging materials related to our production processes.

In line with the principles adopted by our business partners, we carry out all the necessary R&D and production processes with great pleasure and meticulousness. If you care about and adopt the same principles as us,

WE ARE READY TO MAKE BUSINESS PARTNERSHIP!!!

Multi-Action Highlighter
Super Serum

LIGHTENING, REVITALIZING & SKIN TONE CORRECTOR SUPER SERUM

Thanks to 4 different types of Hyaluronic Acid and Panthenol in its formulation, it helps to strengthen the skin barrier while providing the moisture your skin needs. The formula supported by Stay C™ (Patented Vitamin-C) and Citrolumine 8™ (Patented Herbal Blemish Active) helps to reduce the appearance of blemishes and helps your skin look brighter and healthier. Thanks to the content of Azeclair™ (Patented Anti-Acne Sebum Control Active) and Niacinamide content, it helps to reduce the appearance of pores while providing anti-acne sebum control on the skin. A single product is aimed for a solution for blemishes, anti-acne sebum control and pore appearance, and this formula, strengthened with Ferulic acid, helps to minimize the damage caused by UV and to tighten your skin. Helps strengthen and repair the skin barrier to reduce the appearance of fine lines.
